Hi Dave,

No problem. We had a massive regional outage of internet services day before yesterday due to a lightning strike on an AT&T data center, so I know how it goes.

I just wanted to check in with you on the TA request and whether you had been given clearance to proceed, or otherwise had any thoughts on what's being proposed. Again, particularly on the eLMRAP draft BE, we're looking for guidance on your agency's concerns with the document and how we might address those in the event of a remand of our original criteria approval action.

Congratulations on your new job with the Corps. I wish you well in that endeavor. We look forward to working with Amy after this week.

Thanks!

Subject: Limited phone access

Hi Mike,

One of the other staff here notified me that you called yesterday - I'm sorry I wasn't able to get back to you, we have a temporary phone system going because we just moved office buildings. I've had some trouble getting mine to work.

Did you have some specific questions?

I have looked over the TA request you sent as well as the Turbidity Criteria Revision document, but I have not had an opportunity to discuss with my supervisors how we might provide TA.

Also FYI - I have accepted a new position with the Corps, and my last day of work here will be this Friday.

Ms. Amy Trahan of this office will be taking over as the POC for this project.

Sincerely,
Dave
